

CHRISTOPHER CHUA

DIRECTOR

Christopher Chua finds deep satisfaction in seeing a design job through from concept to completion, and relishes being a designer who can turn his hand to architecture in all its shapes and forms. “For me the thrill is being faced with a fresh challenge and the chance to apply my knowledge in different ways. From tented naturalist villas to cool urban chic hotels, and from minimalist to opulent, every project is a signature within itself.

During nine years as an associate with Singapore’s eco.id, Chua worked on resorts at the farther reaches of luxury, including The Shangri-La Saadiyat Beach, Abu Dhabi, Nikki Beach Resort, Qatar, The Saladaeng Residences, Bangkok, and TAJ Vivanta resorts in Assam and Chennai. He has developed a deep understanding of the symbiosis between branding and design.

Since joining BLINK, he has unleashed the full force of his creativity in Goa to work on a Hilton Resort on Saipem Hills, a steep challenging site with a need for innovative planning for Hilton’s smallest resort. On top of that, current projects include an iconic Renaissance by Marriott Resort in Hailing Island, a Doubletree Resort by Hilton in stunning mountainous Benxi, Liaoning, a Rosewood Resort in Samui and Marriott Resort, Sanya.
